A DIFFERENT KIND OF AMATEUR RADIO COMPETITION ---> The overall Amateur Radio population has diminished dramatically, and the group at Radio Arcala (OH8X) is poised to try some new methods to attract young people congregating in many non-traditional hangouts such as Virtual World on the internet.

The overall Radio Arcala strategy is spelled out on the OH8X Webpages but one of the key buttons - "On Young People's Terms" - is still to be drafted. Radio Arcala challenges members of our fraternity of all ages to draft the text for this button in a way that is both appealing and informative enough to encourage today's youth to take the step we once took. Please submit your paper (no more than 250 in length in English or Spanish) by email no later than 15 March to [oh8x@sral.fi](mailto:oh8x@sral.fi) (English) or [yv5amh@iaru-r2.org](mailto:yv5amh@iaru-r2.org) (Spanish). Details on the project can be found at <http://www.radioarcala.com>

[TNX OH2BN]

APPEAL FOR HELP ---> Abubaker, DL1AL (5A1A) submitted "a very large number" of 5A1A QSL cards for ARRL awards, but they got lost between Germany and the US. "In an effort to rebuild my cards to apply for various awards, as well as to create a QSL album of contacts from Libya, I need your help", he says. "Please check your logs and if you worked 5A1A from 1995 onward, would you please send me a card to confirm the contact? You may send the card via the German bureau to DL1AL (my German callsign) or to my address in Germany".

ARRL INTERNATIONAL DX CONTEST (CW) ---> Object of the contest is for W/VE amateurs to work as many stations in as many DXCC countries as possible on 160, 80, 40, 20, 15, and 10 metre bands, while foreign amateurs (also including KH6, KL7, CY9 and CY0) work as many W/VE stations in as many of the 48 contiguous states and provinces as possible (full rules can be found at <http://www.arrl.org/contests/rules/2009/intldx.html>). This year's event will run from 00.00 UTC on 21 February through 24.00 UTC on the 22nd. Do not forget to give a look at the Announced Operations listing maintained by Bill, NG3K at <http://www.ng3k.com/Misc/adxc2009.html> - good contest to you all!

K5D ---> The logsearch is now up and running on DXpedition's website (<http://www.kp5.us/>). It currently covers the period from 16 UTC on 13 February until 01.10 UTC on the 20th (67277 QSOs). The team now has "a more robust internet connection and the gap between uploaded logs should begin to shrink". The online lookup "cannot correct any problems we discover in the logs. Those will be dealt with when we're off island. In short, if you cannot find a Q in the online log, work us again just to be certain!"

LOGS ---> A logsearch for J20SE's recent operation is now up and running at <http://www.ik3ges.it/iv3fsg.htm>, and the QSL cards are being printed. [TNX IK3GES]

QSL 3V8SS ---> Antonio, IZ8CCW is the new QSL manager for 3V8SS, effective 1 January 2009. He is trying to get a hold of old logs. [TNX IZ8CCW]

WINQSLPOLICY ---> Manfred Meier, DF6EX (author of WINQSL and WIN-QSL-Collector) has just started a new project called WINQSLPOLICY. This application shows "where you can expect a return of QSL-cards via Buro, via Direct or if you just worked a Dollar-IRC-Collector". The database currently contains more than 10,000 entries, and club-licences are free of charge. Detail can be found on [www.wingql.de/qslpolicy](http://www.wingql.de/qslpolicy). [TNX DF6EX]
